

Company registration services

Support with drafting legal documents and administrating the registration of e.g. a new company name, company officials, financial year etc.

What we offer

Servando's services for company changes and registration matters will ensure you a swift and correct registration process.

By contacting Servando with an inquiry, including a short description of the company and the matter, you will receive an offer including suggested action, time-frame and fee for implementation.

"A flawless handling of the matter. I especially appreciate you leading the process and your engagement to keep it moving forward. Matters like these are otherwise often de-prioritised and postponed. Very content!"

Servando will provide you with advice regarding the proposed changes and administer all necessary formalities, such as minutes from general- and board meetings, update the articles of association etc.

Servando will also make sure that the matter is sent to the Swedish Companies Registration Office (Sw. *Bolagsverket*) (CRO) as fast as possible.

Further, Servando will represent the company toward the CRO and monitor that the matter is handled correctly and as quickly as possible.

After completion of the registration, the assignment will be finalised by returning the original documents and the registration certificate to you, showing that the changes have been registered.

Benefits

- Desired or decided changes will be implemented and realised.
- Broad competence and experience of the legal framework and procedures contribute to a correct and swift registration.
- Leadership of the process with reminders and check-ups ensures it moves forward as fast as possible.
- A pre-established assignment and a fixed fee guarantee predictability.

Servando's Fee	(VAT not included)
Service	SEK
Change of company name	2 400
Registration of secondary or parallel company name	2 400
Changes in articles of association	1 900
Changes of company officials	1 900
Changes in authorised signatory	1 400
